PHIL VERMEULEN

Vermeulen Governmental Relations & Contractors Licensing Center

- New laws that took effect in 2025 having the most impact on your construction business, or will when they come online including the recent changes to the mandatory workers' compensation requirements.
- New bill introductions for 2025 that will have the greatest impact on your business should they ultimately pass.
- An 'up close and personal' view about the realities of our state government today.
- Recent legislative changes to PAGA
- New or upcoming rules and regulations from the Contractors State License Board (CSLB)
- How to ensure you remain in the 'good graces' of the CSLB
- Succession Plans for your business
- Converting your license or adding an additional license classification

Wednesday, March 5, 2025

5:00 pm - DRINKS & DINNER followed by **6:00 pm - PRESENTATION**

(up to 7 dinners/mbr firm per year; \$40 thereafter)

Call/Text or Email Margy Ashby at 619.302.3257, mcasdip@gmail.com with your reservation.

PHIL VERMEULEN BIO

Over the past 44 years, **Phil Vermeulen, President of Philip M. Vermeulen Governmental Relations**, has served as one of the major construction lobbyists working in the State Capitol with the California legislature, governor and other constitutional officers. He has also worked throughout this time with all of the state agencies whose authority impacts contractors.

Phil has represented over 36,000 contractors statewide who have included the Engineering Contractors Association, the Flasher Barricade Association, the Fence Contractors Association, the Plumbers and the 25 Builders Exchanges who make up the Golden State Builders Exchanges. Literally every bill affecting contractors over these past 44 years has either been sponsored by Phil and his clients; or, his 'fingerprints have been all over the measure' as it moved through the legislature and was ultimately signed by the Governor.

MCA DINNER MEETING PRESENTATION — MARCH 5, 2025 (begins at 5 pm)

Phil will be discussing the new laws that took effect this year (2025) that have the most impact on your construction businesses, or will when they ultimately come online. For example, recent and forthcoming legislation that mandates workers' compensation for all contractors, regardless if they have employees or not, has changed.

Phil will also discuss the new bill introductions for 2025 that will have the greatest impact on your businesses should they ultimately pass.

Besides these discussions, Phil will provide you with an 'up close and personal' view about the realities of our state government of today.

NOTE: Phil invites you to bring your questions about a bill you've heard about, a law on the books, an agency regulation of any kind such as Air Resources Board, Energy Commission, Cal OSHA, or any other agency. Also Contractors License Board -- your personal license, succession, complaints or anything else. With Phil's 44 years representing contractors before legislature, governor, state agencies, et al., if he doesn't have the answer immediately, he'll have an expert friend who does & get back to you!
